REMARKS Partial answer to letter [REDACTED] dated 16 July 1949

SOURCE

From 25 to 30 twin-engine transport aircraft were stationed at the ALTEBURG (N 51/K 27) airfield on 16 August 1949. A fuel dump was located at the northern field border. A hangar, the administration building, and three motor vehicle garages were observed at the northeastern corner. The airfield personnel were quartered in the barracks built in the woods east of the field.

25X1A

[REDACTED] Comment: Report confirmed the previously assumed occupation of the ALTEBURG airfield by an air transport regiment equipped with Li-2 aircraft. The numerical designation of the regiment, which is chiefly employed for transport of Soviet Army units, has not yet become known.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
